

ENVIRONMENTAL CONVENTION  
INVESTMENT PROJECTS 01  
LOCAL AND REGIONAL DEVELOPMENT

- ALGERIA · Conversion of Algeria Mousse Polyurethane (AMP)
  - Conversion of Matelas Souf to LCD technology
  - Conversion of SOFTPM, Choupot Oran, to LCD technology
- CROATIA · Project Preparation for phasing out ODS use in Pilva Pharmaceutical
- CUBA · Project for thermal energy supply of air conditioning systems in Cuban hospitals
- INDIA · Project preparation for the phase out of ODS use in the flexible moulded foam sub-sector in 5 e.
  - Conversion from CFC-11 to water-based technology at Pramukh Poly-Products
  - Phase out of CFC 11 in the manufacturing of moulded foam at Precision Engineering Tools & Components
- IRAN · Conversion of the use of CFC to LCD in the manufacture of flexible foam at Iranogharb
  - Conversion of Nikou Esfandj
  - Conversion of Phira Khodora
  - Conversion of Sanayeh
  - Conversion of the integral skin production of the Jahad Tahghighat Group in Iran
  - Conversion of the use of CFC to LCD in the manufacture of flexible foam at Esfanj Jajerood
  - Phase out of CFC 11 in the manufacturing of flexible PU slabstock foam at Abre Baspar Foam Co., Iran
- KENYA · Conversion of TCA based cleaning process to non-ODS
- LEBANON · Project preparation and technical assistance at Arnatoury S.A.R.L., Sin-EI-Fil
- MAURITIUS · Mauritius: Investment project for phasing out CFCs at Chem Tech-Stella Industries, Port Louis
- SYRIA · Establishing a halon bank and umbrella project for 63 manufacturers
